KEY CLIENTS

UCEC Extension, Northeastern University, Golden Gate University, Google, eBay, Accenture, Hewlett Packard, and over 500 mid-size organizations (SMBs) and start-ups.

PAST PERFORMANCE

Digital Asset Management

Analyzed, developed, and implemented a comprehensive digital asset management system for a global enterprise ($ billion in revenue) and integrated the system into online content management systems.

Agile and Scaled-Values Project Management (ASVPM.org)

Creating an experiential community of Agile practitioners (projects, programs, products, portfolio) and organizational leadership to gain an *Agile mindset* from the trenches and through hands-on practices.

Northeastern University

Created and delivered over 40 on-premise, virtual, and hybrid classes to MS-degree Project Management and Agile classes, covering over 30 relevant topics with experiential and hands-on case studies.

UCSC Silicon Valley Extension

Designed, created, and delivered over 80 on-premises, virtual, and virtual classes covering Agile and Projects and Product Management (certificate program), involving relevant topics with hands-on cases.

Online and Business Support Services

Assessing, prototyping, developing, implementing, and supporting over 20 SMB online assets/presence, providing teams and leadership training (using the latest Agile and Projects/product delivery tools and techniques), and improving clients' businesses with emerging technologies (including Artificial Intelligence, MLL, cybersecurity, etc.)
